

THE CALENDAR NOBODY HAS

Home Maintenance Tracker

Maintenance is remembered rather than scheduled in most houses, which means each task is noticed by its consequence. The consequence always costs more than the task.

MONTHLY

- | | |
|------------------------------|---------------------------------|
| ■ HVAC filter checked | ■ Drains run hot with a flush |
| ■ Smoke and CO alarms tested | ■ Water softener salt if fitted |

QUARTERLY

- | | |
|--------------------------------------|--|
| ■ Gutters checked, cleared if needed | ■ Water heater checked for sediment |
| ■ Dryer vent cleared | ■ Extinguisher gauge, garage and kitchen |

TWICE A YEAR

- | | |
|--|---|
| ■ Alarm batteries replaced, all of them | ■ Roof and flashing looked at from the ground |
| ■ Deep clean behind the large appliances | ■ Outdoor taps drained before frost |

ANNUALLY

- | | |
|-------------------------|---|
| ■ HVAC serviced | ■ Attic and crawlspace inspected for damp |
| ■ Chimney swept if used | ■ Insurance and warranty documents reviewed |
| ■ Sump pump tested | |

WHO DOES IT

Name who owns each interval. Unowned maintenance does not happen.

We build these systems for you.

Most people know which area is weakest. What they lack is the two uninterrupted weeks it takes to fix it. That is the part we do: we build it, document it in English and Spanish, train the people who use it, and stay on to adjust it.
