

THE ORGANIZING LAYER, NOT THE HALACHIC ONE

Pesach Organization Checklist

This covers the organizing work only: sequence, storage, labelling and logistics. Every halachic question, what requires kashering, what may be sold, what must be removed, is your Rav's to answer and his answer governs. Nothing here is a ruling.

SIX WEEKS OUT

- | | |
|---|--|
| ■ Decide which rooms are in scope and write the list down | ■ Book any help early, availability goes first |
| ■ Order what you know you need before the shelves empty | ■ Photograph cupboards before you empty them, for putting back |

STORAGE AND LABELLING

- | | |
|---|--|
| ■ One labelled place for what is put away | ■ Seal and mark clearly, so nothing is opened by mistake |
| ■ Label in every language spoken in the house | ■ Keep the sold or stored inventory written down, not remembered |

ROOM BY ROOM, IN ORDER

- | | |
|---|--|
| ■ Bedrooms and playrooms first, they hold the surprises | ■ Kitchen last and slowest, it needs the most time |
| ■ Car, bags, coat pockets | ■ Do not start the kitchen until everything else is done |

THE KITCHEN, LOGISTICS ONLY

- | | |
|---|--|
| ■ Empty fully before anything else begins | ■ Separate sets stored and labelled clearly |
| ■ Surfaces covered per your practice | ■ Anything ambiguous goes in one box for your Rav, not a guess |

THE WEEK ITSELF

- | | |
|---|--|
| ■ Menus written and shopped before the last days | ■ One person owns the sequence, everyone else follows it |
| ■ Staff instructions written, in their language, before they are needed | ■ A written list beats four people remembering differently |

YOUR RAV'S RULINGS

Write the answers here as you get them, so nobody has to ask twice or guess later.

We build these systems for you.

We handle the organizing layer: the sequence, the labelling, the storage, and the written instructions your staff can follow. Halachic questions stay with your Rav, where they belong.
